OUR INVENTORS CLUB, TECHNOLOGY FROM HEAVEN

Dear friends in Jesus.

I hope and pray this Fall finds you well in Christ. This month I'm excited to report on our Inventors' club called Technology from Heaven. Each Friday night at 7 o'clock our inventors club meets at the building we also use for our computer training and refurbishing. It is located on 51st and Normandie, down in the hood. We invite the youth in the neighborhood to come. We teach an 8 step program that teaches individuals to hear from God and make creative inventions. The program also teaches how to develop a product and protect it. Also it teaches how to do a patent search and, write patents, and how to find a buyer and sell their invention for royalties.. If you know of anyone who would like to join our inventors club and allows us to help them develop and market their invention please let us know. You don't have to come to the club meetings to be a member and be helped. The following testimony is by one of the members of our inventors club his name is Teddy and this is a story.

To the right is Teddy. Is a member of our inventors club and a real miracle. Our inventors club is to draw in and reach out to troubled youth in the community and teach them job skills.

A shot of our inventors club. Youth learn the eight step program that teaches them how to hear from God, how to develop, protect, and find a buyer for their invention.

Teddy Campos testimony

Hi my name is Teddy Campos and this is my testimony. I am now totally in love with Jesus however my life started out as a rocky road. At age 12, I went into a state of rebellion against authority because of my anger toward my parents. Most of this was because they weren't there for me, in that they were always working. To express my anger and frustration I ended up stealing a car and was convicted of grand theft auto and ended up in juvenile hall. For the next 11 years of my life I ended up in jail at least once every year. I went to jail for things like fighting in school, drug abuse, and stealing. I remember running away from home when I was 13 and I did a drug called meth for the first time in my life. By the age of 15 I was doing crack cocaine, mushrooms, marijuana, alcohol, and actually about every drug except antifreeze. I was doing some kind of drug about every day. I'm not proud of my drug life, and actually it really messed my mind up.

When my parents split up when I was 18 I moved out and lived on the streets for 2 years. I survived by stealing, and selling and doing drugs. I really hit my rock bottom, I lost all hope and motivation. Because of my involvement with meth, I destroyed all good relationships with what friends I had and even my parents. I faced a time in life when I almost committed murder because somebody close to me was being threatened.

continued on back

WHAT WE DO:

OUTREACH DEPARTMENT:
Up to 7 weekly Outreaches to places such as Venice Beach, Santa Monica, South Central Los Angeles, and High Schools.

LIVE IN MENTORING PROGRAM:
One on one for men 18-27 yrs old. A Christian training program designed to raise up future leaders for the Kingdom of God.

South Central L.A. Parks
Ministering to community residents, feeding and giving clothing to the low income community and gang members.

Street Level Sunday Night

Sunday Services

Every Sunday night service at our 91st Street South Central Ministry Center 7:00pm

This caused me to really do some soul-searching and seeking God. Also some real believers in Jesus reached out to me. The result was I began to cry out to Jesus and I gave my life to Him, praise God. I needed a place where I could be rehabilitated, go through some healing and grow and to be nurtured and put my faith in action, so I joined Hope For Homeless Youth. It was there that I learned about the Inventors Club and I wanted to join because I love fixing things.

At the inventors club, Technology from Heaven I learned a new trade and through the club I learned how to work with plastics, metals, and learn to build prototypes . I also learned some basic electronics and learned about patenting and protecting a product and about marketing an invention. I learned this by taking the classes on the eight step program that taught us how to develop a product and sell it to a buyer for royalties. These are all skills that I know will help me in the future. Each Friday night at the Inventors club meetings, I'm working on some new patented r/c flying craft. I'm also working a full-time job and really getting my life together. I just praise God for what He has done in my life and I really want to thank the Inventors Club for helping me to get my life together and all the training I have received. I really have come to find that Jesus is more than a word on a page in a book or a curse word in the streets. He's become my best friend and I love praying to Him. He has caused me to be delivered from my drug addiction. Also he has taken the rebelliousness, bitterness, and unforgiveness out of my heart. He has also begun to heal my mind from all the drug abuse.

My goal is to move forward and better my career and eventually help other troubled young man like I once was.
In Jesus name; Teddy

Ministry News

1. We are managing 4 facilities and are blessed to have touch the lives of more than 25,000.
2. Our monthly Ministry trips to Mexico are going great helping the poorest of the poor.
3. Up to 7 outreaches a week to such places as Hollywood Blvd., Santa Monica, Venice Beach & South Central L.A.
